22 May 1981

MEMORANDUM FOR THE RECORD

SUBJECT: Holdings for MISC 12, the Pre-Huk Campaign Period
(Nov 45 - Dec 46)

1. This is a fairly small history (42 pages) that has been written from memory, as the author states in a covering memo of 22 May 1971 attached to this Part I section ... "that the events described in this history took place 25 years or so ago. No reference materials, aide-memoires, personal notes or file records were available to help in the narration of this history."

2. No source material is with this collection, as the author again states ... "the bulk of supporting documents should be available with the Philippine Government, which indeed, is below par compared to US Government standards, there are still many living Philippino, American, Thai, Vietnamese and several Latin-American nationals, mostly well placed personalities, that can substantiate the claims of this narrative."

3. The author has included his Personal Data Sheet through 1971.

4. Part I is the only section the History Staff has; however, there is a transmittal slip in with this collection dated 21 Nov 73, addressed to C/CIA History Staff, Walt Elder from [redacted] with the notation "Ask [redacted] if he submitted the other 3 parts of [redacted] story -- especially the Latin American part."; this leads one to believe that the other three parts of the history were written ... where they are today is anyone's guess. The history is divided chronologically as follows:

- I. Pre-Huk Campaign Period - Nov 45-Oct 46
 - Staff Studies & Reports
 - Conferences & Interviews
 - Election Day (E-Day), April 1946
 - The President-Elect
 - Executive Officer. G-2

III. The Indo-China, SEATO and UNO Experiences, June 54-Feb 58

IV. Travels in Latin America, Feb 1958
